ABSTRACT

Designed as supplemental material to on-going instruction in the vocational program, this first of three picture dictionary booklets in the Allied Health series is intended to assist the learning handicapped student to master the core vocabulary taught in the trade. Intended for individual or small group instruction with minimal supervision, this module contains seven lessons: (1) The Hospital, (2-3), Hospital Workers; (4) Hospital Support Departments, (5) Diagnostic Departments, and (6-7) Patient Care Units. The format for each lesson includes (1) general directions, with a list of words taught in that lesson, and (2) each word presented on a separate page with a representative picture and simple definition. (The module is intended for use with a cassette tape and flash cards.) An alphabetical index to the vocabulary words in the module is given at the back of the booklet. Two other dictionaries in this series are available as CE 024 408 and CE 024 409. An accompanying teacher's manual is available separately as CE 024 406. (This is one of five series of materials developed by Project HIRE. The two-volume final report of the project is available as CE 024 117 and CE 024 118. See Note for the other series.) (YLB)

BOOK I

Lesson I

The Hospital

ALLIED HEALTH

Book I

DIRECTIONS:

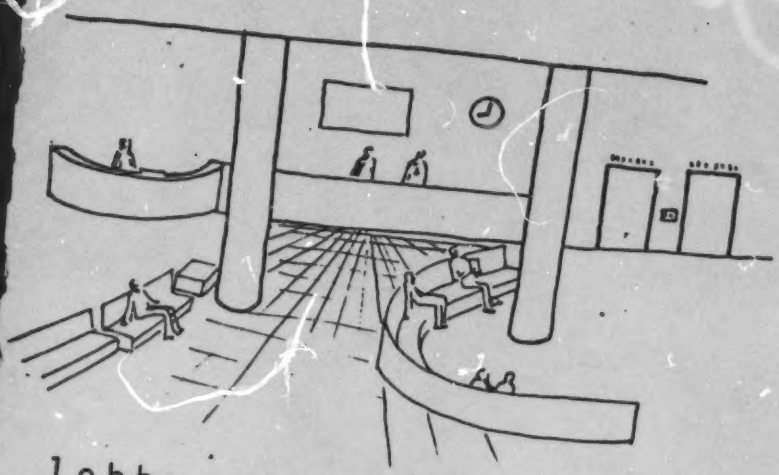
1. The words in this lesson are:

   lobby
   information desk
   admissions
   private room
   semi-private room
   ward
   patient lounge
   nurse's station
   chapel

2. Each word has its own page with a picture. Under the picture, you will find the meaning of the word.

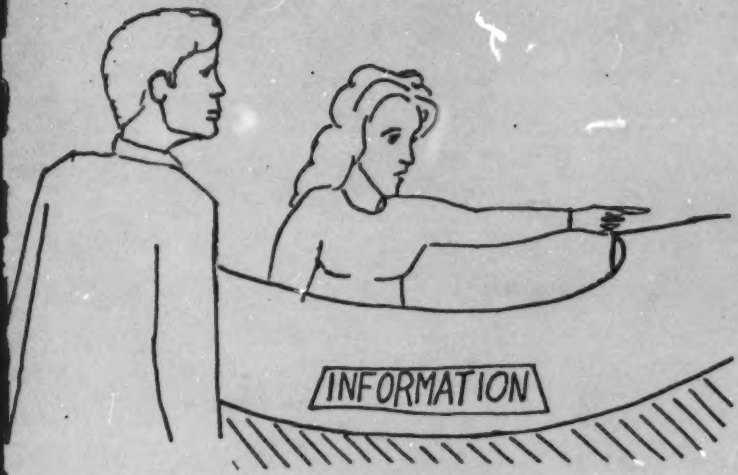
3. Turn the pages and look at the words while you listen.

4. When you get to the last word, turn back to page . The tape will say the words again.



lobby

The lobby is where family and friends of patients can wait. The information desk is in the lobby.

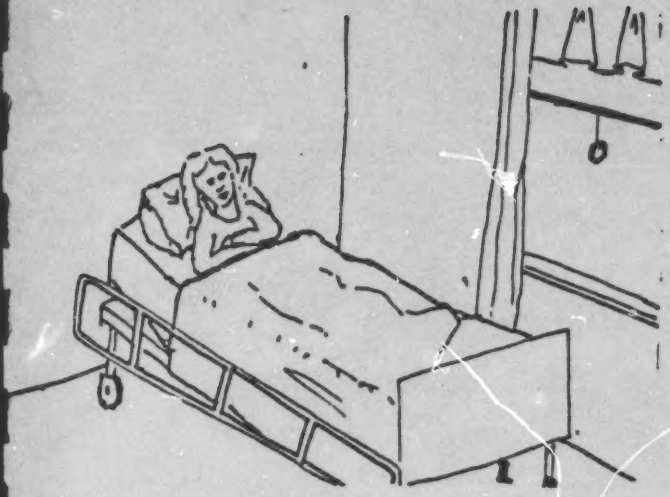


information desk

The information desk is where people can find out about the patients in the hospital.

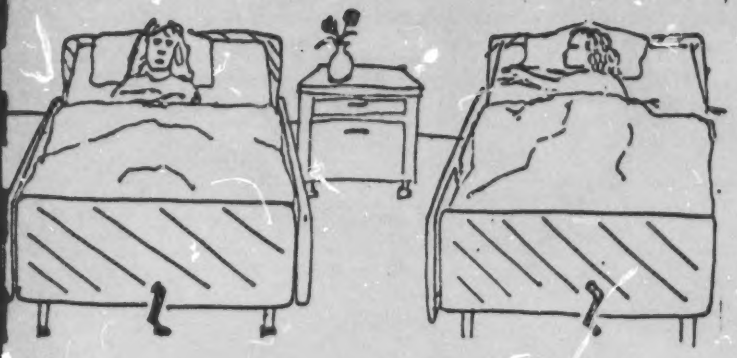
admissions

Admissions is the place where a sick person goes to be checked into the hospital.



private room

A private room in the hospital is where only one patient is staying.

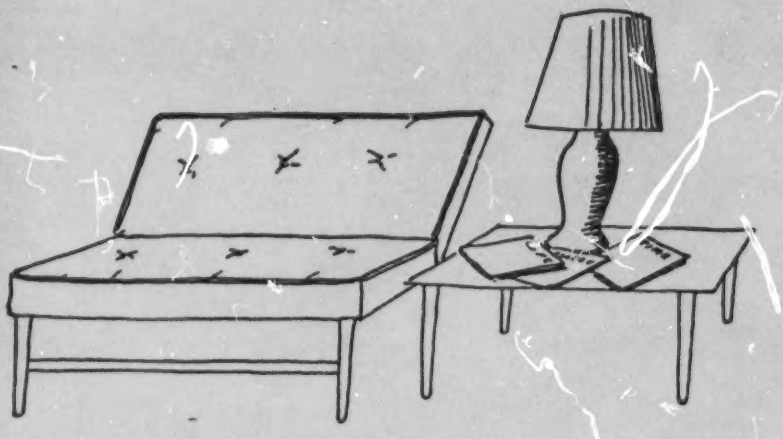


semi-private room

A semi-private room in the hospital is where two patients stay.

ward

A ward is a big room in the hospital where more than two patients stay.

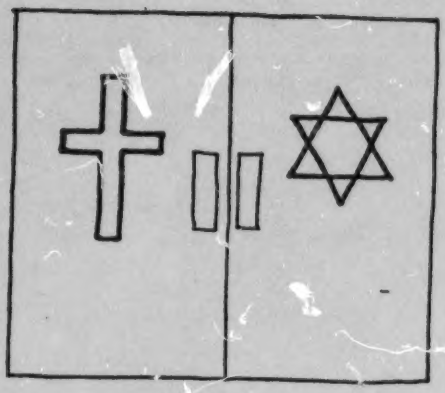


patient lounge

The patient lounge is a place patients go to read or talk with other patients or visitors.

nurse's station

The nurse's station is where the records of each patient are kept. Each floor with patients on it has a nurse's station.



chapel

The chapel is a place in the hospital where people can pray.

DIRECTIONS CONTINUED:

1. Now you should get cards 1 to 9 from the box.

2. When you have the cards, look at the first picture and see if you know the meaning of the word.

3. Turn the card over and see if you are right.

4. Do the other cards in the same way.

5. If you do not get each one right, listen to the tape again. Then try the cards again.

6. If you do get them all right, ask your teacher for Activity 1. Now rewind this tape and get cards 1 to 9.

BOOK I

Lesson 2

Hospital Workers

ALLIED HEALTH

Lesson 2

DIRECTIONS:

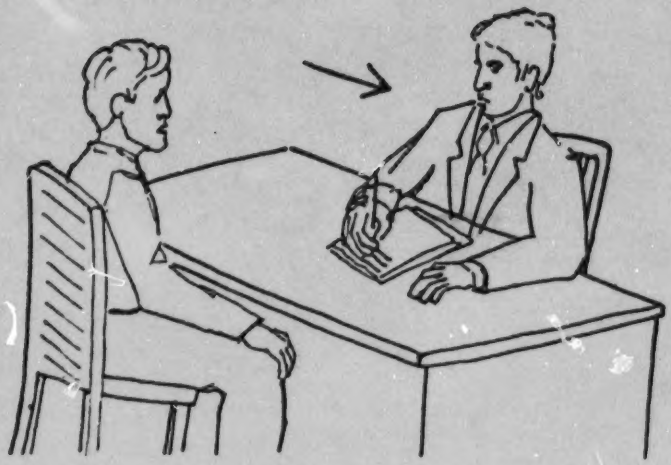
1. The words in this lesson are:

admitting officer
chaplain
ward secretary
maintenance worker
housekeeper
transport aide
volunteer
security police
dispatcher
social worker

2. Each word has its own page with a picture. Under the picture, you will find the meaning of the word.

3. Turn the pages and look at the words while you listen.

4. When you get to the last word, turn back to page . The tape will say the words again.

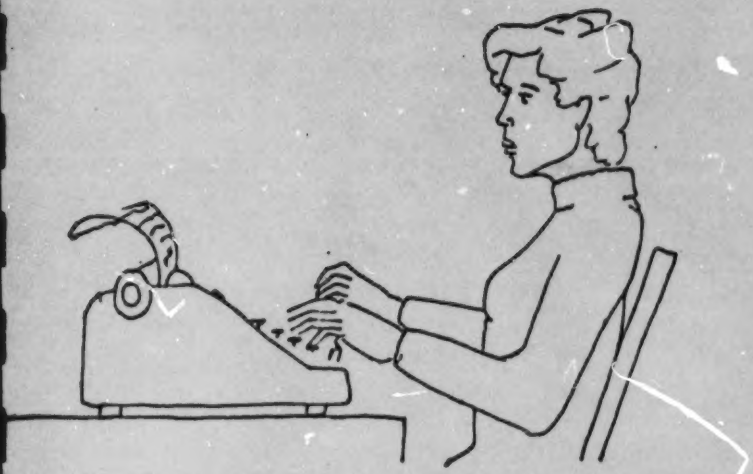


admitting officer

The admitting officer is the person who takes a patient's history and then admits the patient into the hospital.

chaplain

A chaplain is a person
who prays with people.



ward secretary

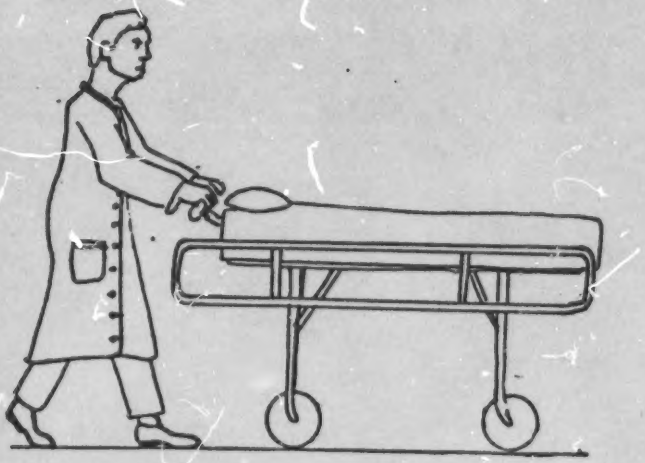
A ward secretary is the person who keeps the patient records.

maintenance worker

A maintenance worker is the person who fixes machines and does repairs in the hospital.

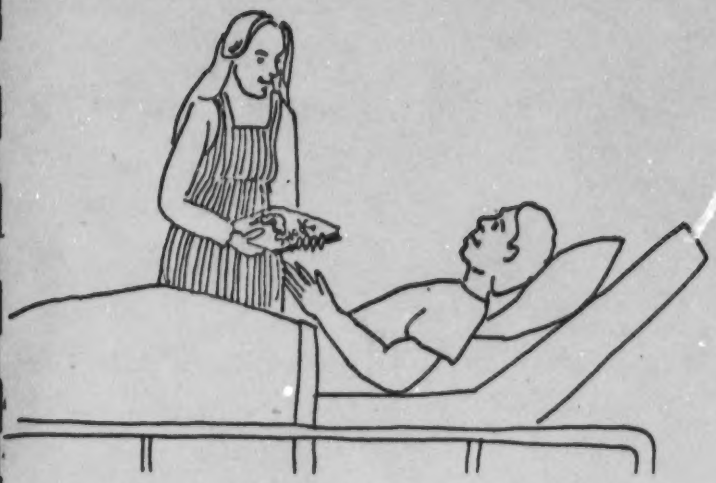
housekeeper

The housekeeper is a person who cleans the hospital and rooms.



transport aide

A transport aide moves patients to different parts of the hospital.



volunteer

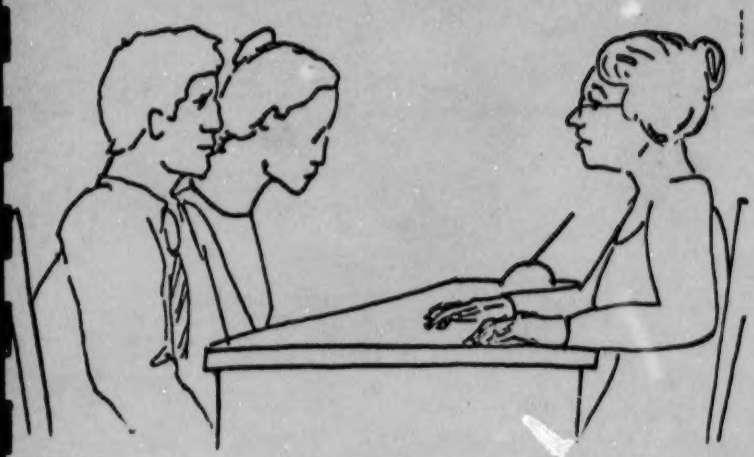
A volunteer is a person
who works with no pay
to help in the hospital.

security police

Security police helps keep the hospital safe for patients and staff.

dispatcher

The dispatcher is the person in charge of the transportation department. The dispatcher tells where to move people or packages.



social worker

A social worker is a person who helps people with personal problems.

2. When you have the cards, look at the first picture and see if you know the meaning of the word.

3. Turn the card over and see if you are right.

4. Do the other cards in the same way.

5. If you do not get each one right, listen to the tape again. Then try the cards again.

6. If you do get them all right, ask your teacher for Activity 2.
Now rewind this tape and get cards 10 to 19.

BOOK I

Lesson 3

Hospital Workers

ALLIED HEALTH

Lesson 3

DIRECTIONS:

1. The words in this lesson are:

   nurse
   doctor
   orderly
   nurse's aide
   physical therapist
   occupational therapist
   lab technician
   operating room technician
   respiratory therapist

2. Each word has its own page with a picture. Under the picture, you will find the meaning of the word.

3. Turn the pages and look at the words while you listen.

4. When you get to the last word, turn back to page . The tape will say the words again.

nurse

A nurse is a person who helps the patient get better.

doctor

A doctor is a person who treats and helps cure sick patients.

orderly

An orderly is a person who helps nurses and doctors with male patients.

nurse's aide

A nurse's aide helps nurses and doctors with female patients.

physical therapist

A physical therapist works with the patient to help muscles get strong and heal faster.

occupational therapist

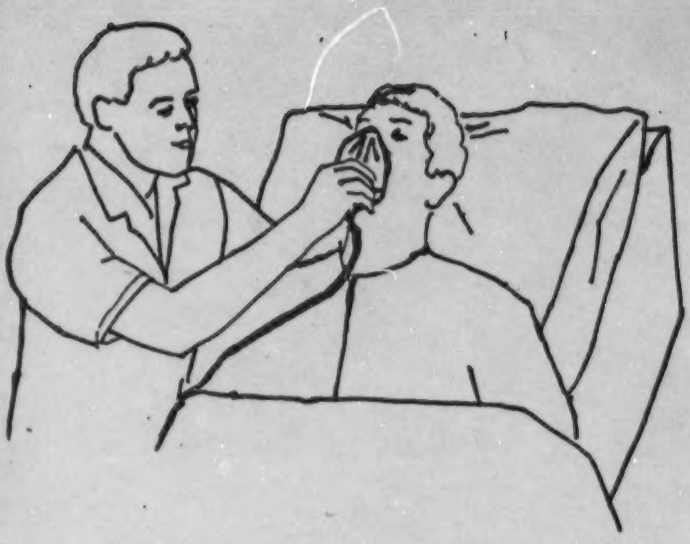
An occupational therapist works with patients who have an illness that stops them from doing their old work. The occupational therapist helps them learn skills for a new job.

lab technician

A lab technician is a person who helps to do blood tests in a laboratory.

operating room
technician

An operating room technician is a person who helps doctors and nurses during an operation.



respiratory therapist

A respiratory therapist is a person who helps the patient who is having trouble breathing. They use breathing machines and exercises.

3. Turn the card over and see if you are right.

4. Do the other cards in the same way.

5. If you do not get each one right, listen to the tape again. Then try the cards again.

6. If you do get them all right, ask your teacher for Activity 4.
Now rewind this tape and get cards 29 to 40.

BOOK I

Lesson 5

Diagnostic Departments

ALLIED HEALTH

Lesson 5

DIRECTIONS:

1. The words in this lesson are:

urology department
pathology department
audiology department
opthalmology department
dermatology department
cardiology department
EKG Department
clinical laboratory
bacteriology department
hematology department
x-ray department
outpatient clinic

2. Each word has its own page with a picture. Under the picture, you will find the meaning of the word.

3. Turn the pages and look at the words while you listen.

4. When you get to the last word, turn back to page . The tape will say the words again.
